Nostalgia

Reflections on Argentina

Bio

In *Nostalgia*, award winning composer/singer/lyricist Christel Veraart invites you on a journey through the rich and diverse soundscapes of Argentina, a country she once called home. Inspired by this vibrant land, Christel captures its melodies and rhythms in compositions that draw from both the bustling metropolis of Buenos Aires and the folklore-rich rural regions. The album features her original compositions and lyrics alongside three songs by Argentine giants: **Astor Piazzolla's** Chiquilín de Bachín, **Atahualpa Yupanqui's** El Alazán, and **María Elena Walsh's** Como la Cigarra. Having performed these gems numerous times over the years, they have become part of her musical fabric. For *Nostalgia*, Christel has newly arranged and performed them, infusing her work with authentic Argentine flair. Christel's passion for exploring the world, and in this case, the unique way Argentina has touched her, shines through in every track. Her multi-faceted talent is evident as she composes, performs, sings, and produces each piece. Her visual artistry complements the musical experience, making *Nostalgia* a complete artistic expression.
